

Ramji B

+91-6383367872 / itzrvrm2337@gmail.com / [LinkedIn](#) / [GitHub](#) / [Portfolio](#)

EDUCATION

KPR Institute of Engineering and Technology
Bachelor of Engineering in Computer Science and Engineering

Coimbatore, India
2023-2027

CERTIFICATIONS

[RHCSA](#) Red Hat Academy(2025), [The Complete Web Development Bootcamp](#) (Udemy), [GitHub Foundations \(GitHub Skills, Mar 2025\)](#) ,[Ultimate AWS Cloud Practitioner CLF-C02](#) (Udemy) , [Node.js & MongoDB: Developing Back-end](#) (Udemy)

Competitive Programming: LeetCode[\[Link\]](#),GeekforGeeks[\[Link\]](#).

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, Python, C, TypeScript, SQL, HTML

Frameworks & Libraries: React.js,Nextjs,Express, FastAPI,Shadcn/ui,framer motion,Redux, Tailwind CSS, Bootstrap.

Databases :PostgreSQL,MongoDB,Supabase ,firebase,redis| dragonfly.

Tools & Platforms:Git, Github,Postman,Docker , Aws, Figma, Electron, ngrok, Vercel,Render, WordPress, Cloudflare.

EXPERIENCE

Full Stack Developer Intern

Jan 2025 –April 2025

Oodser

- Worked as a Full Stack Developer Intern at OODSER, contributing to their full-stack web application with React (JSX & Next.js with TSX), Node.js, Supabase, MongoDB.

Full Stack Developer Intern

May 2025

Melange Publications, Pondicherry

- Developed Societics for [societycis.org](#), a full-stack app with admin panel, role-based dashboards, membership management, and CC Avenue payment integration, using React, Node.js, Tailwind CSS, MongoDB, and Firebase Authentication.

PROJECTS

Smart Parking System (Parkpuram) | React, Nodejs, PostgresSql, FastAPI, Yolov8, AWS,IOT

[\[Live\]](#) / [\[Source Code\]](#)

- Designed a smart parking system that automates vehicle entry, slot booking, and real-time availability tracking.
- Enabled seamless user experience with instant booking, gate control, and entry logging for improved parking management.

FocusAI-Productivity tool | React.js, Nodejs, Extension MongoDB,docker , Electron ML Model

[\[Live\]](#) / [\[Source Code\]](#)

- Developed FocusAI to analyze app usage, screen focus time, and productivity patterns through a centralized Dashboard And suggest Improvements for users.
- Implemented a smart suggestion system to help users improve focus and reduce time spent on distracting activities.

Atmospheric Water Generator(Awg) | ESP32, Embedded C, IoT, React.js/Node.js, MongoDB, ML

[\[Live\]](#) / [\[Source Code\]](#)

- Designed and built a Peltier-based IoT Atmospheric Water Generator that extracts 15–20 L/day of potable water from air humidity, with multi-stage filtration and UV purification.
- Integrated ESP32 with DHT22, pH, TDS & ultrasonic sensors; developed AI yield-prediction model and full-stack web/mobile dashboard for real-time water quality monitoring, analytics, and remote alerts.

Kubernetes DevOps Pipeline (Todo App) | Kubernetes, Docker, Jenkins, SonarQube, ArgoCD, GitOps

- Built a complete CI/CD pipeline using Jenkins, SonarQube, Docker, and ArgoCD, enabling automated builds, code quality/security analysis, container image publishing, and GitOps-based Kubernetes deployments with instant rollback support.
- Implemented a production-ready workflow with version-controlled deployments, Kubernetes resource management, and GitOps continuous delivery, gaining hands-on experience in securing, scaling, and automating cloud-native applications.

FREELANCE &WORKS

- Currently working as Full-Stack & System Design Engineer at TRU – building a complete on-premise enterprise stack with Node.js + VM-based microservices, Dragonfly (high-performance Redis alternative), RabbitMQ for message queuing, MongoDB sharding, custom private cloud hosting, end-to-end CI/CD, and secure RBAC architecture (production-grade live system).(Current-2026)
- Designed and developed LuxorHolidayHomeStays([LINK](#)) end-to-end – full-stack booking platform with Firebase Auth, Razorpay integration, real-time Firestore, dynamic inventory system, and analytics admin panel; earned ₹20,000 stipend.(Jul-Aug 2025)
- Architected and built ICMBNT 2025([LINK](#)) & ICMBNT 2026 ([LINK](#))conference platforms – complete system with abstract submission, reviewer workflow, payment gateway, automated emails, and real-time admin dashboard (2026 under active development).(ICMBNT-2025 -Mar-2025,ICMBNT-2026 Nov-Jan-2026.

PATENT &PUBLICATIONS

AI-Powered Smart Parking System (Patent #: 202441093238 A)

Filed: Nov 28, 2024 | Published: Dec 6, 2024

- **Co-invented an AI-powered Smart Parking System (Patent #: 202441093238 A)** integrating AI/ML, IoT, cloud, and web technologies for automated and secure parking management.
- Built the **end-to-end architecture** with React.js + Firebase (frontend) and Node.js + FastAPI microservices (backend) for real-time booking and system operations.
- Implemented **Tesseract OCR–based number plate recognition** and IoT sensor integration enabling automated gate access and real-time slot monitoring.
